

## Relevant Idaho Facts<sup>i</sup>

### State Medicare Information

- There are 323,878 total Medicare beneficiaries in the State of Idaho, which represents 18.46 percent of the total population.
- Idaho Total Annual Medicare Spending equals \$2,370,000,000.

### Documented Shortage of Primary Care Health Professionals

- According to the Health Resources and Services Administration, Idaho has 99 total primary care Health Professional Shortage Areas (HPSA). Covering 490,174 residents, or 27.94 percent of the population
- There are 60 licensed audiologists in the State of Idaho who could help.

### Hearing Loss Statistics

- Of the more than 36 million Americans who experience hearing loss, 30 percent are 65-74 years old and 47 percent are 75 years old and older.
- Idaho has 405,000 residents with hearing loss, which represents 23.1 percent of the state population.
- Untreated hearing loss results in a greater occurrence of other physical and mental conditions in elderly patients, substantially reducing the quality of life for older adults and increasing Medicare spending. Treated hearing loss enhances the quality of life and reduces health care costs.

### National Data on Older Adult Falls

- Every 18 seconds, an older adult is treated in an emergency room for a fall.
- The average cost for a fall injury is \$30,000 and the direct medical cost for falls is \$50 billion annually.
- Among older adults (those 65 or older), falls are the leading cause of injury death. They are also the most common cause of nonfatal injuries and hospital admissions for trauma.
- Elderly falls are preventable as are their associated financial and societal costs. Audiologists reliably diagnose and treat the vestibular disorders and help prevent older adult falls.
